- Participated in a private audit of an NFT collection.
- Developed a decentralized raffle portal, where randomness and fair results can be verified.

## PROJECTS

---

### Stratify (ETH London 2024)

Personal project awarded at ETH London focused on DeFi asset management, increasing the margins of crypto custodians.

### TimeFi (ETH Barcelona 2023)

Built a time tokenization platform to bring supporters and influential people closer together, making the scarcest asset (time) more liquid.

### Packed (Telefónica, Block and Change Hackathon 2023)

Built a decentralized mobile data market, where people can buy data without attachment to carriers or contracts.

**Scholario (Esade and IE Startup Turbo 2023/2024)**

Developed a platform matching talent with companies, incentivizing both actors with an innovative approach.

**Corewar**

Built a project in C that simulates a fight in the computer's memory.

**EXTRA-CURRICULAR ACTIVITIES**

---

- Self-education in business, finance, quantitative analysis, and retail investment, gaining a macroeconomic global vision of the industry. Golf enthusiast.
